In the first webinar, which is scheduled for June, Dr Jonathan Livesey will discuss his practice in working with elite vocal performers. ASPAH members will be able to subscribe and view the webinars from the comfort of their homes as well as ask the presenters questions in real time through the online webinar platform. (The webinars will also be open to non-members, however members will receive a discounted subscription rate)

The Professional Development Committee is hoping to run five webinars through 2016 which will include presentations on actor health, performance psychology and mental health in the performing arts. Times and subscription details will be emailed to members shortly and posted on ASPAH's social media.

We are looking forward to commencing this new initiative for ASPAH and hope that many of you will be able to engage with this new method of promoting performing arts healthcare in Australia!
